Multiple Companies Support

iTrack™ supports multiple companies with multiple structures. Each company can have its own hierarchy and the employees will be linked to their corresponding departments / units.

Multiple Shifts - iTrack™ allows the creation of multiple shifts.

Hardware Integration / Import Features

iTrack™ is fully integrated with iTel's Advanced Iris Authentication solution from EyeLock. Adhoc data import is also available for locations with unstable connection.

Third Party Integration

iTrack™ can easily integrate with your existing payroll and HR system to minimize duplication of information.

Powerful Reporting

Daily, Weekly and monthly reporting of attendance records, presence, violations with ability to check overtime, holidays and can be manually adjusted.
